If a student will need special consideration or accommodations, the student (or parent/guardian) must specifically request the special considerations sought or accommodations needed and must provide supporting documentation (such as an IEP or 504 plan). It would be discriminatory for the District to assume that special considerations or accommodations are necessary without first receiving such a request and appropriate supporting documentation. Please direct requests for special considerations to Diana Howard, Principal, at 720-424-0203. The admission of an identified student with disabilities eligible for special education and related services is contingent upon the determination of an IEP Team that the student can receive a free and appropriate public education in the least restrictive environment at the school.
